Important Questions	Answers	Why This Matters:
What is the overall deductible?	**$500**/Individual **$1,000**/Two Party **$1,250** Family	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay.
Are there services covered before you meet your deductible?	Yes. Preventive care is covered before you meet your deductible.	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive care without cost sharing and before you meet your deductible. See a list of covered preventive services at www.healthcare.gov/coverage/preventive-care-benefits.
Are there other deductibles for specific services?	No.	You don't have to meet deductibles for specific services.
What is the out-of-pocket limit for this plan?	Yes. **$4,000** Individual/ **$8,000** Two Party/ **$12,000** Family	The out-of-pocket limit is the most you could pay in a year for covered services. Prescription drugs have a separate out-of-pocket limit.
What is not included in the out-of-pocket limit?	Premiums, balance billing charges, prescription drugs and health care this plan doesn't cover. In addition, certain specialty pharmacy drugs are considered non-essential health benefits under the Affordable Care Act (ACA) and fall outside the out-of-pocket limits.	Even though you pay these expenses, they don't count toward the out-of-pocket limit.
Will you pay less if you use a network provider?	Yes. See **www.phs.org or call 1-800-356-2219** for a list of participating providers.	This plan uses a provider network. You will pay less if you use a provider in the plan's network. You will pay the most if you use an out of network provider, and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist?	No.	You can see the specialist you choose without a referral.

All copayment and coinsurance costs shown in this chart are after your deductible has been met, if a deductible applies.
