

Transgender Cultural Fluency 101

Provided by the [Transgender Resource Center of New Mexico](#)

Series Objectives:

1. Identify terminology used by the transgender community to respectfully discuss both transgender and non-transgender individuals.
2. Differentiate between an individual's gender, sex, and their sexual orientation.
3. Describe appropriate ways to discuss healthcare-related topics with transgender individuals.
4. Summarize the measurable imperative of providing culturally informed care to transgender individuals.
5. Explain the common barriers to care for transgender patients.
