

DETERMINED TO CARE FOR NEW MEXICANS

PRESBYTERIAN
Española Hospital

PRESBYTERIAN ESPAÑOLA HOSPITAL REPORT TO THE COMMUNITY 2024

WHO WE ARE

Presbyterian Española Hospital (PEH), an acute-care hospital owned and managed by nonprofit Presbyterian Healthcare Services since 1977, serves a diverse population of patients in northern New Mexico from the Española Valley, Rio Arriba County, Santa Fe and Los Alamos. Over the years, the hospital has expanded to meet the growing and changing needs of its patients.

OUR SERVICES

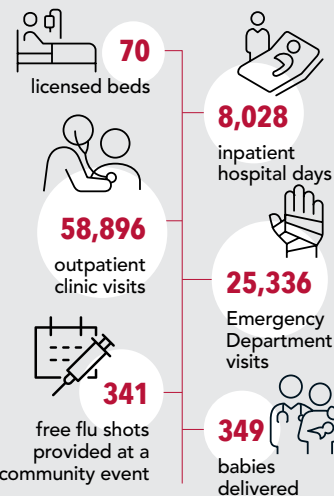

At PEH, the following medical specialties are offered by Presbyterian Medical Group: addiction medicine, colon and rectal surgery, endocrinology, family medicine, general surgery, internal medicine, obstetrics and gynecology, orthopedics, pediatrics, podiatry, pulmonology, same-day care clinic, sleep medicine, and urology.

CARING FOR OUR COMMUNITY

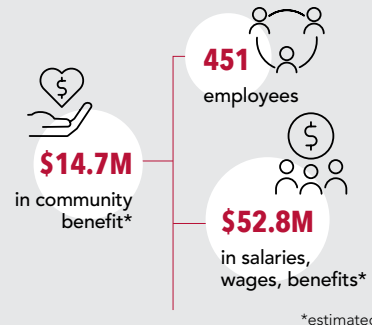

As a community-based healthcare provider, our focus is to provide safe, compassionate and equitable care that keeps our patients and members healthy.

- In 2024, we added two new pediatricians and introduced walk-in hours at our pediatrics clinic for established patients. Walk-in appointments are available to many patients who are sick or have a non-emergent acute injury. In addition, same-day appointments are available under most circumstances for patients who missed the walk-in hours.
- Our talented team members help develop a personalized plan for each patient with diabetes that focuses on how those individuals can take care of their health while living with the condition.
- We offer specialty care so our community can get the care they need close to home. In 2024, we performed 734 colonoscopies and 138 total knee replacements.
- We offer follow-up care related to many types of substance use disorders, including alcohol, tobacco, cocaine, methamphetamine, benzodiazepines, ketamine, cannabis and others, as well as common co-occurring behavioral health conditions such as anxiety and depression. To help us expand our addiction medicine services, we received a grant of \$912,600 from New Mexico's Rural Health Care Delivery Fund.

COMMUNITY CARE BY THE NUMBERS

COMMUNITY CONTRIBUTION BY THE NUMBERS

Learn more about how PEH is supporting its community through care for people with substance use disorders in this video.

COMMUNITY OVERSIGHT

PEH is overseen by a **Board of Trustees** made up of these community members, along with Brenda Romero, our hospital chief executive:

- Tess Casados
- Gail Douglas
- Gregg Ferran
- George Gutierrez
- Mary Beth Lujan
- Mikell Romero
- Lonnie J. Sanchez
- Michael Valdez, MD
