Why Patients & Caregivers Love Synapticure

My mom's Synapticure neurologist is holistic in their approach.

– Caregiver

At Synapticure, I always feel seen, heard, and respected.

– Patient

Cognitive Care Team

Access expert care with personalized plans for diagnosing and treating dementia symptoms.

Wraparound Support

Our multidisciplinary team arranges respite care and provides caregiver support, mental health care, insurance benefits, and more.

Covered Visits

Eligible Medicare beneficiaries can access care at no additional cost with all insurance needs handled by our specialists.

Respite Care Services

Eligible beneficiaries can receive caregiver relief and skilled support for patients.

Synapticure offers additional services for patients and caregivers, **the program doesn't affect your relationship with your existing doctor.**
