How to Use This Guide

This guide provides information about prior authorization tools and resources. Before you continue, please consider using our online prior authorization tools on the PROVIDERConnect Provider Portal to determine if you need a prior authorization, to complete a request and to track the status of your request. The online tools serve as a one-stop shop for all your prior authorization needs. More information about the online prior authorization tools is on page one.

If you choose to use this guide, please visit page two to determine if you need a prior authorization and review the “how to submit a request” section. Then, you will search for the service you are inquiring about based on product line. Please do not search for a specific code.

Disclaimers:

Prior authorization approval does not guarantee payment. Coverage determinations and payment of claims depend upon eligibility, covered benefits, provider contracts and correct coding/billing practices. Cosmetic surgery that is solely for cosmetic purposes (not for medical necessity) and experimental or investigational services are not covered benefits.

Prior authorization approval does not relieve the provider of responsibility to follow all applicable rules regarding the provision of services. This Prior Authorization Guide does not indicate coverage of benefits. Coverage is determined by the member’s benefit plan.

Do You Need a Prior Authorization?

Providers have the option to submit prior authorization requests online, by phone or via fax. The prior authorization form is found [here](#). See the next page for contact information.

All the following services require a prior authorization, in addition to those listed in the tables below:

- Inpatient admission
- Inpatient hospice care except for inpatient hospice care at Presbyterian Kaseman Hospital or the Presbyterian Robert Wertheim Hospice House
- Skilled nursing facility admission
- Home health care

A prior authorization is not required for emergent and urgent services, medically necessary ambulance services, I/T/Us, and family planning services for out-of-network services. All other out-of-network services require a prior authorization. Service requests are reviewed against medical necessity criteria to determine approval.

Note that hospital delivery does not require authorization unless the stay is over 48 hours for a vaginal delivery and over 96 hours for a cesarean delivery.
