Lista de medicamentos cubiertos de Presbyterian Turquoise Care (Lista compartida de medicamentos preferenciales)

Acerca de la lista de medicamentos cubiertos

Presbyterian Turquoise Care desea facilitarle al máximo el acceso a los medicamentos que necesita. La lista de medicamentos cubiertos [*formulary*], o Lista de Medicamentos Preferenciales (PDL por sus siglas en inglés), le ayuda a usted y a su proveedor de atención médica a elegir medicamentos seguros, eficaces y económicos. A partir del 1º de julio de 2026, la Autoridad de Atención Médica de Nuevo México [*New Mexico Health Care Authority, HCA*] pondrá en marcha una PDL compartida a nivel estatal. Esta lista estatal tiene como objetivo facilitar la obtención de medicamentos y garantizar que se apliquen las mismas normas en todos los planes de seguro médico de Medicaid. Además, simplificará el proceso de recetar para los proveedores.

Algunos medicamentos forman parte de esta PDL compartida a nivel estatal. Todos los planes de seguro médico de Medicaid en Nuevo México tienen que seguir las mismas normas para esas clases de medicamentos. La HCA revisa y actualiza estas clases periódicamente. Puede consultar las clases de medicamentos más actualizadas de la PDL compartida en el sitio web de la HCA: https://www.hca.nm.gov/preferred-drug-list/.

En el caso de los medicamentos que no forman parte de la PDL compartida, nuestros expertos clínicos revisan la evidencia médica para ayudar a decidir cuáles medicamentos están cubiertos. Su objetivo es asegurarse de que usted tenga acceso a tratamientos que funcionen.

Este documento explica cómo funciona su cobertura de medicamentos. Le indica qué hacer si necesita un medicamento que no se encuentra en la PDL. Estamos a su disposición para ayudarle a obtener la atención que necesita para mantenerse sano.

¿Qué es una lista de medicamentos cubiertos?

Una lista de medicamentos cubiertos (que también se conoce por sus siglas en inglés, PDL) es una lista de medicamentos recetados aprobados que Presbyterian Turquoise Care cubrirá. El objetivo principal de la lista de medicamentos cubiertos es fomentar el uso de medicamentos seguros, eficaces y más económicos. Nuestra lista de medicamentos cubiertos es «selectivamente cerrada». Esto significa que Presbyterian Turquoise Care normalmente solo cubre los medicamentos que se indican en la lista. La lista de medicamentos cubiertos incluye notas y límites que rigen su cobertura. Entre los ejemplos de límites que rigen la cobertura de medicamentos se incluyen los límites de cantidad, la terapia escalonada, la autorización previa y las restricciones de la red de farmacias especializadas para los productos farmacéuticos especializados (medicamentos especializados). En esta lista de medicamentos cubiertos también verá los medicamentos preferenciales y no preferenciales de la PDL estatal.

Comité de Farmacia y Terapéutica (P&T)

Presbyterian Turquoise Care se encarga de garantizar que sus medicamentos recetados sean seguros y eficaces. Un equipo de farmacéuticos y médicos se reúne cada tres meses para revisar la lista de medicamentos cubiertos (lista de medicamentos preferenciales). Algunos de los miembros de este equipo son empleados de Presbyterian Turquoise Care. Otros proceden de la comunidad. El equipo se denomina Comité de Farmacia y Terapéutica. El equipo evalúa los nuevos medicamentos. También analiza nuevos usos para los medicamentos existentes. Si el medicamento demuestra ser seguro y eficaz en comparación con los medicamentos existentes utilizados para tratar el mismo problema médico, lo añaden a la lista de medicamentos. El equipo puede decidir que el medicamento solo se pueda utilizar para tratar determinados

Los fondos que financian dichos servicios provienen, en parte, del estado de Nuevo México.

problemas de salud. Estas restricciones se indican en la lista. Los medicamentos experimentales nunca se añaden a la lista. El equipo también revisa los medicamentos que ya se encuentran en la lista. A veces, un medicamento nuevo puede ser un mejor tratamiento para un problema de salud que uno más antiguo. En este caso, el equipo puede retirar el medicamento más antiguo de la lista. Además, si dos medicamentos son igualmente seguros y eficaces, se puede retirar el más costoso de la lista.

Si su medicamento no se encuentra en la lista de medicamentos cubiertos
Queremos que disponga de los medicamentos recetados debidos, incluso si estos no se encuentran en nuestra lista de medicamentos. Es posible que necesite un medicamento que no esté en la lista. O tal vez necesite un medicamento que no esté aprobado para tratar su problema médico. En estos casos, se puede solicitar una excepción a la lista de medicamentos. Estudiaremos su solicitud. Podemos conceder la autorización si decidimos que el medicamento no incluido en la lista de medicamentos cubiertos o que no es el preferencial es necesario. Por lo general, concedemos la autorización por dos motivos:

1. Su proveedor de atención médica considera que un medicamento similar de nuestra lista no es tan eficaz para mejorar su salud
2. Su proveedor considera que un medicamento similar incluido en nuestra lista podría ser perjudicial para su salud

¿Qué es la autorización previa (PA)?
Presbyterian Turquoise Care tiene que aprobar algunos medicamentos recetados antes de que usted los reciba. Si no obtiene una PA, es posible que no paguemos el medicamento. Usted o su proveedor de atención médica pueden solicitar la PA por fax, teléfono o correo electrónico.

¿Qué es la terapia escalonada (ST)?
Primero debe probar ciertos medicamentos para tratar un problema de salud antes de que se cubra un medicamento diferente para el mismo problema de salud. Por ejemplo, si tanto el medicamento A como el medicamento B tratan su problema de salud, es posible que Presbyterian Turquoise Care no cubra el medicamento B a menos que pruebe primero el medicamento A. Si el medicamento A no le funciona, el plan podría entonces cubrir el medicamento B.

¿Qué son los límites de cantidad (QL)?
Un límite de cantidad es un límite en la cantidad de medicamento que pagaremos en un periodo de tiempo. Utilizamos directrices médicas y recomendaciones aprobadas por la Administración de Alimentos y Medicamentos de los Estados Unidos (FDA) de los fabricantes de medicamentos para establecer estos límites de cantidad.

¿Qué es el suministro diario no prolongado (NEDS)?
Algunos medicamentos de la lista de medicamentos cubiertos tienen un límite en el suministro diario permitido. Los medicamentos con un indicador de «suministro diario no prolongado» se limitan a un suministro de 30 días.

¿Qué son los productos farmacéuticos especializados (SP)?
Los «productos farmacéuticos especializados», o medicamentos especializados, son medicamentos que se utilizan a menudo para tratar enfermedades crónicas complejas, raras y/o problemas de salud que ponen en peligro la vida. La mayoría de los SP requieren una validación del diagnóstico. Además, tienen que suministrarse a través de la red de farmacias especializadas. Los SP no están disponibles a través de la opción de venta por correo y se limitan a un suministro de 30 días.

Medicamentos genéricos

La mayoría de los medicamentos de la lista de medicamentos de Presbyterian Turquoise Care son genéricos. Un medicamento genérico está aprobado por la FDA, tiene el mismo ingrediente activo que el medicamento de marca y actúa de la misma manera en su cuerpo. Los genéricos cuestan menos y suelen ser la primera opción para el tratamiento.

Presbyterian Turquoise Care cubre el medicamento genérico de primera línea en cada grupo de medicamentos similares. Sin embargo, hay ocasiones en las que la Lista de Medicamentos Preferenciales (PDL) compartida a nivel estatal (dispuesta por la HCA) incluye un medicamento de marca como preferencial. Cuando esto ocurra, recibirá los medicamentos de marca, incluso si existe un genérico.

Acerca de esta lista de medicamentos cubiertos

- Esta no es una lista completa.
- No constituye una promesa de cobertura (pago por parte de su seguro).
- La cobertura de algunos de los medicamentos incluidos puede limitarse a determinadas formas de dosis y/o concentraciones.
- Los medicamentos que no se encuentran en la lista de medicamentos cubiertos o los que no son preferenciales **no** estarán cubiertos a menos que haya probado primero todos los medicamentos de la lista de medicamentos cubiertos y su proveedor de atención médica haya indicado por escrito que no funcionan.
- Los medicamentos que proceden de fuentes vivas (biológicos) pueden sustituirse por medicamentos considerados clínicamente similares en su composición y uso (biosimilares) o por medicamentos de marca aprobados por la FDA que se comercializan sin la marca en su etiqueta (alternativas de marca autorizadas).

Servicios no cubiertos (excluidos)

Ciertas clases de medicamentos están excluidas de la cobertura y no se pueden cubrir, tales como:

- Medicamentos utilizados para la pérdida de peso y el control del peso
- Medicamentos utilizados para tratar la disfunción sexual
- Medicamentos utilizados para tratar la infertilidad
- Medicamentos utilizados para tratar la caída del cabello
- Medicamentos utilizados para tratar problemas estéticos
- Ciertos medicamentos compuestos
- Medicamentos para la tos y el resfriado para asegurados menores de cuatro años
- Medicamentos considerados experimentales y en fase de investigación
- Medicamentos que, según los procedimientos de la Implementación del Estudio sobre la Eficacia de los Medicamentos (DESI), se han determinado como «menos que eficaces» (LTE)
- Medicamentos antituberculosos disponibles a través del Departamento de Salud de Nuevo México o del Servicio de Salud Pública de los Estados Unidos
- Medicamentos compuestos que carecen de un ingrediente activo aprobado por la FDA
- Medicamentos compuestos cuyos ingredientes activos no tienen un NDC asignado o no están aprobados por la FDA para uso humano
- Productos de venta libre no incluidos en la Lista de Medicamentos Preferenciales (PDL) o que se haya determinado que no son médicamente necesarios
- Medicamentos sin receta para asegurados que viven en centros de enfermería (NF) o ICF-IID, a menos que los haya recetado el proveedor de atención médica responsable y estén incluidos en el plan de cuidados aprobado del asegurado
- Artículos de cuidado personal, como champús o jabones sin receta
- Medicamentos para un beneficiario con derecho al MAP que reúna los requisitos para la Parte D de Medicare si el medicamento o la clase de medicamento cumple la definición federal de

medicamento cubierto por la Parte D de Medicare

- Medicamentos que no participan en el Programa de Descuentos de Medicamentos de Medicaid, a menos que la División de Asistencia Médica haya determinado lo contrario

Definición de estado

Icono	Estado	Definición
	Lista de medicamentos cubiertos	Un medicamento incluido en la lista de medicamentos de Presbyterian
	Medicamento no preferencial de HCA.	Por lo general, un medicamento que el estado ha decidido no incluir en la lista de medicamentos
	Medicamento preferencial de HCA	Un medicamento seleccionado por el estado para ser incluido en la lista de medicamentos.
	Medicamento de venta libre de HCA	Un medicamento que el estado decide cubrir y que no requiere receta médica para su compra.
	Medicamento de venta libre	Un medicamento incluido en la lista de medicamentos que cubre Presbyterian y que no requiere receta médica.
	Beneficio médico	Un medicamento que administra un proveedor de atención médica en su consultorio.
	Excepción médica	Un medicamento que no se encuentra en la lista de medicamentos cubiertos del plan
	Exclusión de beneficios	La exclusión de beneficios es un servicio o medicamento que no está cubierto por el programa Medicaid de Nuevo México
	Fuera de la lista de medicamentos cubiertos	Un medicamento que no está incluido en la lista de medicamentos cubiertos.
	Medicamento oncológico	Medicamento utilizado para tratar el cáncer.

Definición de restricciones

Icono	Restricción	Definición
	Restricción de edad	Un límite de cobertura basado en la edad mínima o máxima del asegurado con el fin de garantizar la seguridad y la eficacia de los tratamientos y las dosis de los medicamentos.
	Límite de cantidad	Un límite sobre la cantidad de un medicamento que puede obtener.
	Distribución limitada	Un medicamento especial que solo se puede surtir en determinadas farmacias.
	Suministro diario no prolongado	Se limita el suministro de este medicamento a un mes (30 días).
	Autorización previa	La autorización previa es un proceso de evaluación clínica para determinar si el servicio de atención médica solicitado es médicamente necesario, si se trata de un beneficio cubierto y si se está prestando en el entorno de atención médica más adecuado.
	Límite de cantidad	Límite en la cantidad de medicamento que pagará Presbyterian Turquoise Care en un periodo determinado. Presbyterian se basa en directrices médicas y en las recomendaciones aprobadas por la FDA de los fabricantes de medicamentos para establecer estos límites de cantidad.
	Medicamentos de la Lista II: suministro máximo diario	Medicamento de la Lista II y suministro máximo diario.
	Farmacia especializada	La mayoría de los medicamentos especializados requieren autorización previa y tienen que obtenerse de la red de farmacias especializadas. Los medicamentos especializados suelen tener un costo elevado, normalmente superior a $600 por un suministro de hasta 30 días. Los medicamentos especializados no están disponibles en tiendas ni por correo y se limitan a un suministro de 30 días. Se limita el surtido inicial de ciertos medicamentos especializados a un suministro de hasta 15 días para garantizar que los pacientes toleren el nuevo medicamento.
	Terapia escalonada	La terapia escalonada promueve el uso debido de medicamentos de la lista de medicamentos cubiertos igualmente eficaces pero de menor costo en primer lugar. Con este programa, se exige el uso previo de un medicamento obligatorio o más antes de que se cubra un medicamento de la terapia escalonada. Los medicamentos obligatorios están aprobados por la FDA y tratan el mismo problema médico que los medicamentos correspondientes de la terapia escalonada.
	Suministro dividido: nuevos tratamientos	Se limita el surtido inicial de ciertos medicamentos especializados a un suministro de hasta 15 días para garantizar que los pacientes puedan tolerar el nuevo medicamento.
	Código de diagnóstico	Un medicamento que requiere la validación del código de diagnóstico para garantizar que se utiliza para un diagnóstico aprobado por la FDA.
