

Lista de medicamentos cubiertos y medicamentos que favorece Presbyterian Turquoise Care

La lista de medicamentos que favorece Presbyterian Turquoise Care está sujeta a cambios.

Esta lista está en orden alfabético. Para buscar un medicamento específico, utilice la aplicación de búsquedas que está a su disposición en Adobe Acrobat Reader (acceso directo: Ctrl+F).

Definición de la categoría

Icono	Categoría	Definición
	Lista de medicamentos cubiertos	Medicamento cubierto que se encuentra en la lista de medicamentos.
	Beneficio médico	Medicamento médico administrado en el consultorio fármaco especializado.
	\$0	\$0 es el copago conforme a las directrices de la Ley de Cuidado de Salud a Bajo Precio y de Protección de los Pacientes [<i>Patient Protection and Affordable Care Act, PPACA</i>].
	Excepción médica	Un medicamento que no se encuentra en la lista de medicamentos cubiertos del plan. El recetador, el asegurado o su representante designado pueden solicitar una excepción. El recetador tiene que aportar información para respaldar la solicitud de excepción médica por fax, por teléfono o por correo regular.
	Exclusión del beneficio	Exclusión del beneficio. No es beneficio cubierto.
	No se encuentra en la lista de medicamentos	Medicamento que no se cubre en la lista de medicamentos.

Definición de las restricciones

Icono	Restricción	Definición
	Restricción de edad	Una restricción que rige la cobertura, basada en la edad mínima o máxima del asegurado, a fin de garantizar la seguridad y efectividad de los tratamientos y las dosis de los medicamentos.
	Indicador genérico	Un medicamento genérico ha sido aprobado por la Administración de Alimentos y Medicamentos [<i>Food and Drug Administration, FDA</i>] de los EE. UU. Por tener el mismo ingrediente activo y puede sustituir el medicamento de marca. Por lo general, los medicamentos genéricos cuestan menos que los medicamentos de marca.

Icono	Restricción	Definición
	Acceso restringido	Acceso restringido.
	Suministro de días no extendido	Se limita este medicamento a un suministro de un mes.
	Sin receta	Medicamentos que se pueden vender sin receta.
	Autorización previa	La autorización previa es un proceso de evaluación clínica que determina si el servicio médico solicitado es medicamento necesario, un beneficio cubierto, y si se está proveyendo en el entorno médico más adecuado.
	Cantidad límite	Un límite que rige la cantidad de un medicamento por el cual pagará Presbyterian Turquoise Care en un periodo de tiempo. Presbyterian utiliza las directrices médicas y las recomendaciones de los fabricantes de los medicamentos aprobadas por la FDA para establecer los límites que rigen las cantidades.
	Días máximos de la lista II	Días máximos de la lista II.
	Farmacia especializada	Se exige la autorización previa para la mayoría de los fármacos especializados y se tienen que obtener por medio de la red de farmacias especializadas. Por lo general, los fármacos especializados son caros; típicamente un suministro máximo de 30 días cuesta más de \$600. Los fármacos especializados no están disponibles por medio de la opción de tiendas o de encargos por correo y se limitan a suministro máximo de 30 días. Se limita el surtido inicial de algunos fármacos especializados a un suministro máximo de 15 días para asegurar que los pacientes puedan tolerar el medicamento nuevo.
	Terapia escalonada	La terapia escalonada fomenta primero el uso debido de medicamentos que se encuentran en lista de medicamentos cubiertos y que son igualmente eficaces, pero que cuestan menos. Con dicho programa, se exige el uso previo de un medicamento “prerrequisito”, o de más de uno, antes de que se cubra un medicamento de terapia escalonada. Los medicamentos prerrequisitos han sido aprobados por la FDA y tratan el mismo problema médico que los medicamentos de terapia escalonada correspondientes.
	Surtido dividido: empezar de nuevo	Se limita el surtido inicial de algunos fármacos especializados a un suministro máximo de 15 días para asegurar que los pacientes puedan tolerar el medicamento nuevo.
	Código del diagnóstico	Código del diagnóstico.

Sobre esta lista de medicamentos

- Esta no es una lista completa.
- No garantiza la cobertura del plan (que lo pague su seguro).
- La cobertura del plan para algunos de los medicamentos que se enumeran a lo mejor solo sea para ciertas formas de la dosis y/o potencias específicas.
- Los medicamentos que no se encuentran en la lista de medicamentos **no** los cubrirá el plan a menos que usted haya probado primero todos los medicamentos que se encuentran en la lista de medicamentos y su médico ha afirmado por escrito que no funcionan.
- El beneficio de medicamentos de Presbyterian Turquoise Care exige que los medicamentos genéricos sustituyan los medicamentos de marca siempre que sea posible.
- En lugar de los medicamentos que provienen de fuentes vivas (biológicos) se pueden sustituir medicamentos que se consideran clínicamente similares en su estructura y uso (biosimilar) o por medicamentos de marca aprobados por la FDA que se promocionan sin la marca en la etiqueta (alternativas autorizadas en lugar de los medicamentos de marca).
- Se excluyen de la cobertura del plan ciertos tipos de medicamentos y no se pueden cubrir, por ejemplo:
 - Medicamentos que se usan para perder peso
 - Medicamentos que se usan para tratar la disfunción sexual
 - Medicamentos que se usan para tratar la infertilidad
 - Medicamentos que se usan para tratar la caída del cabello
 - Medicamentos que se usan para tratar problemas cosméticos
 - Ciertos productos farmacéuticos compuestos
 - Medicamentos para la tos y los resfríos para los asegurados menores de cuatro años de edad

- Medicamentos que se consideran experimentales y de investigación
- Medicamentos que se haya determinado que son menos que efectivos [*Less Than Effective, LTE*] por los procedimientos de la implementación del estudio de la efectividad de medicamentos [*Drug Efficacy Study Implementation, DESI*].

El diseño de sus beneficios determina lo que cubre el plan y la cantidad de su copago. Sírvase consultar los materiales de sus beneficios para los datos de la cobertura específica de su plan.

Explicación de los términos

1. **Límite de edad [*Age Limit, AG*]** – El asegurado tiene que tener cierta edad para que el plan cubra el medicamento.
2. **Implementación del estudio de la efectividad de medicamentos [*Drug Efficacy Study Implementation, DESI*]** – La implementación del estudio de la efectividad de medicamentos de la Administración de Medicamentos y Alimentos [*FDA*, en inglés] evalúa la efectividad de los medicamentos que se han aprobado anteriormente, del 1938 al 1962, basándose solo en el fundamento de la seguridad. Los medicamentos que se determinen que son menos que efectivos por los procedimientos de la implementación del estudio de la efectividad de medicamentos, una designación de cinco o seis, se excluyen de la cobertura de su plan.
3. **Medicamentos médicos [*Medical Drugs, MED*]** – Un medicamento médico es cualquier medicamento que le proporcione un proveedor de atención médica y que típicamente se administra en la casa del asegurado, en el consultorio médico, en una clínica independiente de infusiones (ambulatorio) o en un centro clínico para pacientes ambulatorios. A lo mejor se exija que se consiga la autorización previa (permiso) para los medicamentos médicos y algunos de ellos se tienen que obtener mediante la red especializada. Si desea conseguir una lista completa de los medicamentos médicos a fin de determinar para cuáles se exige que se consiga la autorización previa, sírvase consultar el sitio web de farmacia de *Presbyterian* en www.phs.org.
4. **Excepción médica (ME)** – Permiso para utilizar un medicamento que no se encuentra en la lista de medicamentos de *Presbyterian Turquoise Care*. Usted puede conseguir una excepción médica para utilizar un medicamento que no se encuentra en la lista de medicamentos si tiene cualquier alergia o una reacción mala a todos los medicamentos de la lista o si no funcionan los medicamentos de la lista. Tanto usted mismo como su médico pueden pedir una excepción médica por fax, teléfono o correo electrónico. Su médico tiene que explicar por qué está pidiendo una excepción médica.
5. **Venta libre [*Over-the-Counter, OTC*]** -- Usted tiene que tener una receta médica para que el plan cubra estos medicamentos. Fíjese bien: Los medicamentos de venta libre para los asegurados del paquete alternativo de beneficios [*Alternative Benefit Package*] solo se cubren para los asegurados de 19 y 20 años de edad.
6. **Autorización previa [*Prior Authorization, PA*]** – Usted mismo o su médico tienen que pedir permiso (una aprobación) de *Presbyterian Turquoise Care* antes de que le surtan su medicamento con receta. Si no consiguiera la autorización previa, a lo mejor *Presbyterian Turquoise Care* no pague por el medicamento. Tanto usted mismo como su médico pueden pedir permiso por fax, teléfono o correo electrónico.
7. **Límite que rige las cantidades [*Quantity Limit, QL*]** – Un límite que rige la cantidad de un medicamento por el cual pagará *Presbyterian Turquoise Care* por un período de tiempo.
8. **Fármacos especializados [*Specialty Pharmaceuticals, SP*]** -- Los fármacos especializados autoadministrados se autoadministran; es decir, que el paciente, un familiar o un cuidador los

administra. Por lo general, se utilizan los fármacos especializados para tratar enfermedades complicadas, crónicas y raras y/o problemas médicos que ponen en riesgo la vida. Por lo general, los fármacos especializados son caros; típicamente un suministro máximo de 30 días cuesta más de \$600.

- a. Los fármacos especializados no están disponibles por medio de la opción de tiendas o de encargos por correo y se limitan a suministro máximo de 30 días.
 - b. La mayoría de los fármacos especializados se tienen que obtener por medio de la red de farmacias especializadas.
 - c. Pudiera haber restricciones adicionales que rigen los días del suministro de algunos fármacos especializados.
 - d. Se exige la autorización previa para la mayoría de los fármacos especializados.
9. **Eliminación escalonada [Step Edit, ST]** – Primero usted tiene que probar unos medicamentos específicos para tratar un problema médico antes de que el plan cubra un medicamento diferente para el mismo problema médico. Por ejemplo, si tanto el Medicamento A como el Medicamento B tratan su problema médico, a lo mejor *Presbyterian Turquoise Care* no cubra el Medicamento B a menos que primero pruebe el Medicamento A. Si no funciona para usted el Medicamento A, entonces el plan tal vez cubra el Medicamento B.
