|--|--------------------------------------|
| TITLE: NHSC Clinic Financial Assistance Screening | REFERENCE NUMBER: PMG.PDS.200 |
| CURRENT EFFECTIVE DATE: 07/02/2024 | PAGE 1 of 7 |

| | |
|---------------|--|
| SCOPE: | |
|---------------|--|

National Health Service Corps (NHSC) applies at approved clinic locations (see Appendix A)

| | |
|-----------------|--|
| PURPOSE: | |
|-----------------|--|

As part of its purpose, Presbyterian endeavors to ensure that the financial capacity of people who need healthcare services does not prevent them from seeking or receiving needed medical care. To that end, Presbyterian provides emergency and other medically necessary care free or at a discount if a patient is unable to pay.

This policy defines the process to determine whether Presbyterian patients, accessing care at a National Health Service Corps (NHSC) approved clinic location, will be eligible for full or partial financial assistance.

Patients accessing care through non-NHSC approved Presbyterian locations should refer to the Presbyterian Financial Assistance Policy – PFS.PDS.116.

| | |
|----------------|--|
| POLICY: | |
|----------------|--|

Presbyterian is committed to assisting patients with the financial aspects of the care they receive. As part of Presbyterian’s participation in the NHSC program, eligible clinics offer financial assistance to patients who express an inability to pay for their care.

The process for these locations varies from the PHS Financial Assistance Policy – PFS.PDS.116.

| | |
|-------------------|--|
| PROCEDURE: | |
|-------------------|--|

1. At or before the time of service, patients will be asked to pay any applicable out of pocket expenses related to their care. If the patient expresses an inability to pay due to financial hardship, the clinic staff will conduct a financial pre-screening process.
2. Clinic staff will complete the NHSC screening form to evaluate eligibility for discounted services. Patients must be able to provide information relative to their household income and family size in order for a determination to be made for full or partial financial assistance for the initial visit.
3. Eligibility determination is based on income and family size for the initial visit.

| | |
|--|--------------------------------------|

| CURRENT EFFECTIVE DATE: 07/02/2024 | PAGE 2 of 7 |

4. Income refers to “modified adjusted gross income” (MAGI). For most people, it is the same or very similar to adjusted gross income (AGI). MAGI is not a number on your tax return.
5. Family size means the number of individuals considered when determining income eligibility and includes the applicant, the other parent or responsible person and their dependent children who reside in the same household.
6. Discounts will be calculated based on a sliding scale according to income and family size and is based on the Federal Poverty Level (FPL). The Federal Government updates this information annually. See **Appendix B** for current year guidelines.
7. Discounts will be applied to all services provided by a Presbyterian provider for the current date of service. Services provided from non-Presbyterian providers, such as laboratories, radiologist interpretations and referrals to other providers outside the clinic, are not billed by Presbyterian and may not be eligible for financial assistance (patients are encouraged to discuss arrangements directly with these providers).
8. After the initial visit verification of income must be provided to extend the sliding scale fee discount past that initial visit. See Financial Assistance Policy – PFS.PDS.116 for income verification requirements.
9. The applicant has the option to apply other forms of financial assistance as well.
 - a. The patient may also work with a Financial Advocate to determine eligibility for NM Medicaid or other alternate resources if desired. If the patient is determined to be ineligible for NM Medicaid or other funding sources, the Financial Advocate will determine whether the patient may qualify for ongoing charity assistance under the PHS Financial Assistance Policy – PFS.PDS.116.
 - b. If the patient has stated gross income below 400% of the Federal Poverty Level, the patient will be determined to be a potential candidate for some level of charity assistance and the Financial Advocate will assist the patient in completing the charity application and explain the process for approval.
 - c. Determinations made based on the information provided during the screening are only applicable to outstanding balances for PMG clinic services. Discounts under this policy do not apply to hospital, ambulance or any ancillary or affiliate services ordered by PMG providers.
10. Patients that do not cooperate with the financial counseling process, or whose application for financial assistance is denied based on information provided, will revert to standard billing and collection practices outlined in Patient Billing and Collections – PFS.PDS.115.
